Dr. Joshua Lederberg
President
The Rockefeller University
New York, New York 10021

Dear Dr. Lederberg:

I am flattered and fascinated by your request for information about the Department of Occupational Health at Pacific Medical Center. I have enclosed a copy of our brochure and a newspaper article which may answer some of your questions. It has been a marvelous experience and opportunity to pioneer---no hospital has approached problems in the workplace in a similar fashion. We have a preference for prevention and an ability to provide comprehensive services. We do everything from medical surveillance in lead battery plants to providing trauma decompression for employee victims of crime!

I will be in Washington in July, and New York in October in case you or others would like to discuss occupational health. There are many areas which we could cover: research opportunities, ethics, marketing (commerce raises its ubiquitous head), services rendered, coordination, labor/management and plaintiff/defense balance. We offer the same services to our own employees that we offer to outside unions and companies. Thus, if you are interested, we can also discuss occupational health for hospital and research personnel. ✓

Thanks for asking for this information. Please let me know if I can be of any help!

Cordially,
